Drive of a Lifetime – One of the World’s Most Spectacular Driving Tours

Take your time. It is possible to travel this route in 3 hours but it is a crime to do so because of the jaw-dropping scenery.

Plan a meal. There are few places to stop so pack a lunch or snacks before leaving. Lake Louise and Jasper have great bakeries that offer boxed lunches and fresh baked goods. There are many fantastic picnic locations to enjoy a meal amidst outstanding vistas.

Fuel up. Fuel up in Jasper or Lake Louise before hitting the highway. If you forget there is a small gas station at Saskatchewan River Crossing.

Unplug. There is no cell phone reception along the Icefields Parkway. Turn off your device and enjoy the views.

For winter travel (mid October to mid May), check the road reports as the Parkway sometimes closes due to avalanches. Winter tires, extra blankets, and winter apparel are recommended.
